SMF ENERGY CORPORATION ENTERS MULTI-STATE DISTRIBUTION AGREEMENT WITH ENVIRO TECH INTERNATIONAL, INC.

Ft. Lauderdale, FL, October 25, 2007 – **SMF ENERGY CORPORATION**, formerly, STREICHER MOBILE FUELING, INC. (NASDAQ: FUEL) (the “Company”), a leading provider of petroleum product distribution services, transportation logistics and emergency response services to the trucking, construction, utility, energy, chemical, manufacturing, telecommunication and government service industries, announced today that it has entered into an agreement with Enviro Tech International, Melrose Park, IL (ETI), to distribute its DrySolv™ Dry Cleaning Solvents in Texas, North Carolina, Georgia and Florida.

DrySolv™ is a non-hazardous, non-chlorinated, non-flammable and environmentally friendly direct alternative cleaner to Perchloroethylene (PERC) and other hazardous or flammable solvents predominately used in the dry cleaning business today. The use of DrySolv™ enhances employee safety, produces non-hazardous waste, reduces operating costs, and delivers exceptional cleaning performance when compared to the traditional use of PERC and related cleaning applications.

Richard E. Gathright, President and CEO commented, “SMF Energy Corporation is a major player in the delivery of chemicals to the dry cleaning industry in Eastern and Central Texas, including the major metropolitan areas of Houston, Beaumont, Dallas/Fort Worth, San Antonio and Austin. This distribution agreement provides us with an excellent opportunity to leverage our network of operating locations and expand our distribution of chemicals into the North Carolina, Georgia and Florida markets.”

Gathright continued, “With tightening government regulations and the growing awareness of the environment, the dry cleaning industry and its customers are increasingly basing their purchase decisions on the environmental impact of products. DrySolv™ is a competitively priced alternative to PERC requiring little to no retrofitting of equipment. We believe DrySolv™ is the right product at the right time and that it will give those cleaners utilizing the product a competitive advantage both in total cost of operation and through the promotion of its benefits to the end consumers looking for a green alternative.”

About SMF ENERGY CORPORATION (NASDAQ: FUEL)

The Company is a leading provider of petroleum product distribution services, transportation logistics and emergency response services to the trucking, manufacturing, construction, shipping, utility, energy, chemical, telecommunications and government services industries. The Company provides its services and products through 26 locations in the ten states of Alabama, California, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee and Texas. The broad range of services the Company offers its customers includes commercial mobile and bulk fueling; the packaging, distribution and sale of lubricants; integrated out-sourced fuel management; transportation logistics and emergency response services. The Company's fleet of custom specialized tank wagons, tractor-trailer transports, box trucks and customized flatbed vehicles delivers diesel fuel and gasoline to customers' locations on a regularly scheduled or as needed basis, refueling vehicles and equipment, re-supplying fixed-site and temporary bulk storage tanks, and emergency power generation systems; and distributes a wide variety of specialized petroleum products, lubricants and chemicals to our customers. In addition, the Company's fleet of special duty tractor-trailer units provides heavy haul transportation services over short and long distances to customers requiring the movement of over-sized or over-weight equipment and manufactured products. FORWARD LOOKING STATEMENTS

This press release includes "forward-looking statements" within the meaning of the safe harbor provision of the Private Securities Litigation Reform Act of 1995. For example, predictions or statements of belief or expectation concerning the future performance of the Company, the future expansion plans of the Company and the potential for further growth of the Company are all "forward looking statements" which should not be relied upon. Such forward-looking statements are based on the current beliefs of the Company and its management based on information known to them at this time. Because these statements depend on various assumptions as to future events, including but not limited to those assumptions noted in the "Management's Discussion and Analysis of Financial Condition and Results of Operation" section in the Company's Form 10-K for the year ended June 30, 2007, they should not be relied on by shareholders or other persons in evaluating the Company. Although management believes that the assumptions reflected in such forward-looking statements are reasonable, actual results could differ materially from those projected. In addition, there are numerous risks and uncertainties which could cause actual results to differ from those anticipated by the Company, including but not limited to those cited in the "Risk Factors" section of the Company's Form 10-K for the year ended June 30, 2007.
