STREICHER MOBILE FUELING, INC. ANNOUNCES THE OPENING OF A NEW OPERATING LOCATION SERVING THE GREATER NEW ORLEANS MARKET

Ft. Lauderdale, FL, January 19, 2006 – **STREICHER MOBILE FUELING, INC.** (NASDAQ: FUEL) (the “Company”), a leading provider of petroleum product distribution services, transportation logistics and emergency response services to the trucking, construction, utility, energy, chemical, manufacturing and government service industries today announced that it has established a permanent operation in the Greater New Orleans area to service new and existing customers, including those directly supporting the reclamation and rebuilding efforts in Southeastern Louisiana.

Richard E. Gathright, President and CEO, commented, “This past September we announced an emergency response mobilization to support the energy and distribution infrastructure in the New Orleans and Southeastern Louisiana region which was devastated by Hurricane Katrina and the resulting flood. Although great strides have been made to restore services since that time, experts estimate that the regional rebuilding effort could take a decade or longer to complete.”

“Since September we have developed a solid customer base and strong demand for our products and services by providing critical, reliable support to a broad range of public and private entities and government organizations. As a result, we have now established a permanent base of operations to supply commercial bulk and mobile fueling as well as lubricants and heavy haul transportation services to Greater New Orleans and the surrounding region.”

Gathright further stated that, “Our New Orleans location is a synergistic expansion of the Company’s developing Texas “hub” operations resulting from our acquisitions of Houston-based H & W Petroleum and Shank Services during 2005. The establishment of the Southeastern

Louisiana base will allow the Company to provide increased emergency storm response services to the Central Gulf Coast region.”

About Streicher Mobile Fueling, Inc.

The Company provides commercial mobile and bulk fueling; the packaging, distribution and sale of lubricants; integrated out-sourced fuel management; transportation logistics and emergency response services. Our fleet of custom specialized tank wagons, tractor-trailer transports, box trucks and customized flatbed vehicles deliver diesel fuel and gasoline to customers’ locations on a regularly scheduled or as needed basis, refueling vehicles and equipment, re-supplying fixed-site and temporary bulk storage tanks, and emergency power generation systems; and distribute a wide variety of specialized petroleum products, lubricants and chemicals to refineries, manufacturers and other industrial customers. In addition, our fleet of special duty tractor-trailer units provides heavy and ultra-heavy haul transportation services over short and long distances to customers requiring the movement of over-sized or over-weight equipment and manufactured products. The Company conducts operations from 28 locations serving metropolitan markets in California, Florida, Georgia, Louisiana, Maryland, North Carolina, Pennsylvania, Tennessee, Texas, Virginia and Washington, D.C. More information on the Company is available at www.mobilefueling.com.

Forward Looking Statements

This press release includes "forward-looking statements" within the meaning of the safe harbor provision of the Private Securities Litigation Reform Act of 1995. For example, predictions or statements of belief or expectation concerning the future performance of the acquired businesses, the planned diversification or expansion plans of the Company and the potential for further growth of the Company, by acquisition or otherwise, are all “forward looking statements” which should not be relied upon. Such forward-looking statements are based on the current beliefs of the Company and its management based on information known to them at this time. Because these statements depend on various assumptions as to future events, they should not be relied on by shareholders or other persons in evaluating the Company. Although management believes that the assumptions reflected in such forward-looking statements are reasonable, actual results could differ materially from those projected. There are numerous risks and uncertainties which could cause actual results to differ from those anticipated by the Company, including those cited in the “Certain Factors Affecting Future Operating Results” section of the Company’s Form 10-K for the year ended June 30, 2004 and 2005.
